Assignment 2

Prepare a **10-minute group presentation** explaining the assigned technology and its application in the energy industry.

Presentation Content

Your presentation must cover the following:

1. **Introduction to the Technology:** Define and briefly explain the chosen technology.
2. **Application in the Energy Industry:** Explain how the technology is currently being utilised in the energy industry. Provide relevant examples.
3. **Implementation Challenges:** Discuss the key challenges or problems associated with implementing the technology.
4. **Advantages of the Technology:** Explain the main benefits of adopting the technology in the energy industry.

Presentation Tips:

- Use relevant diagrams, images, or short videos to enhance your presentation.
- Ensure your slides are clear, concise, and well-organised.
- All group members must participate actively in the presentation.

Presentation Schedule and Submission

- **Presentation Date:** Starting from the next class, **28 October 2026 (Wednesday)**.
- **Duration:** 10 minutes per group.
- **Submission:** The Group Leader must upload the presentation slides to **BRIGHTEN** before the presentation session to ensure a smooth transition between groups.

Important Reminder

Attendance is compulsory for all group members. Members who are absent during their scheduled presentation will have their individual presentation marks deducted.

Groups	Domain	Topic
Group 1	Electricity	**IOT**
Group 2	Electricity	**Blockchain**
Group 3	Electricity	**Smart grid**
Group 4	Electricity	**Big Data**
Group 5	Electricity	**AI-Based Solar Power Forecasting**
Group 6	Nuclear	**Augmented Reality**
Group 7	Oil & Gas	**Virtual Reality**
Group 8	Oil & Gas	**Big Data**
Group 9	Oil & Gas	**IOT**
Group 10	Oil & Gas	**Blockchain**
Group 11	Electricity	**Applications in Generation**
Group 12	Electricity	**Applications in Distribution**
Group 13	Oil & Gas	**AI / ML**
Group 14	Oil & Gas	**Applications in Upstream**
Group 15	Oil & Gas	**Applications in Midstream**
Group 16	Oil & Gas	**Applications in Downstream**
Group 17	Electricity	**Digital Twin**
Group 18	Electricity	**Drone Technology for Power Line Inspection**
Group 19	Electricity	**Battery Energy Storage System**
